

Dear WT Owners and Residents,

We have had residents express concerns over the Coronavirus, also known as COVID-19.

We encourage all residents to hunker down and to the extent possible isolate and protect yourselves from exposure to this emergency.

Please be aware of those around you, neighbors and friends who may need assistance or supplies. If you know or hear of a situation that needs attention, please contact Brian at Sunstate and/or any Board Member.

The Board is committed to providing help when and where needed for our residents.

Until further notice, we will be canceling in person board meetings, and non-essential Association Management meetings.

If you are using the pool, the Clubhouse or any of the bathrooms, we encourage you to bring sterile wipes and **clean before** and **after use** of any of the equipment and facilities.

(Kudos to Cindy Nelson and her team that cleaned and sterilized the pool deck on Sunday prior to a large group using the facilities.)

The Board encourages residents to be personally vigilant during these times and follow the CDC recommendations found here:

Stay well everyone!
